DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see page 2, filed 4-27-07 with respect to the rejection of record have been fully considered and are persuasive. The 35 "USC 103 rejection of record has been withdrawn.

Allowable Subject Matter

2. 1-4, 7, 9 are allowed. The drawings filed 11-28-01 are acceptable.

Reasons for allowance

3. The following is an examiner's statement of reasons for allowance:

The present invention includes independent claims 1 and 2. Both claims recite a manufacturing method for an organic electro-luminescent device.

Miyashita et al is considered the closest prior art. Miyashita et al teaches a method for manufacturing an organic electroluminescent (EL) device, comprising: forming light emitting layers by discharging above a substrate, three compositions, each including at least one electroluminescent material.

Miyashita et al does not disclose the claimed combination including:

Art Unit: 1762

In claim 1:

ordering discharging said compositions above the substrate starting with a composition which has a fewest number of organic electro-luminescent materials, wherein there is formed a layer in a state in which each of the organic electro-luminescent materials is uniformly mixed without separation.

In claim 2:

when discharging compositions which has a same number of organic electro-luminescent materials, ordering discharging said compositions above the substrate starting with a composition which is most difficult to be phase separated after the layer is formed,

wherein there is formed a layer in a state in which each of the organic electro-luminescent materials is uniformly mixed without separation.

For these reasons claims 1 and 2 are deemed to be allowable over the prior art of record, and claims 3-4, 7, and 9 are allowable by dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. An inquiry concerning this communication or earlier communications from the examiner should be directed to Alain L. Bashore whose telephone number is 571-272-6739. The examiner can normally be reached on about 7:30 am to 5:00 pm (Mon. thru Thurs.).
